**West Point Industries Welcomes Corey Cooper  
and Opens Satellite Office in Destin, Florida**

West Point, Ga.—West Point Industries is pleased to announce Corey Cooper has joined the company as a Project Engineer. He will be based in our new office located at 385 East Highway 98 in Destin Florida.

"I am extremely excited to be at West Point Industries and I have been very impressed with the entire team and look forward to helping the company grow in the future," said Cooper.

Cooper has operated as a Mechanical Design Engineer for InDyne Inc., at Eglin Air Force Base in Florida since September 2006. As a contractor for InDyne, Cooper assisted the 46th Test Wing with Operating and Controlling Weapons Test Missions, as well as developing testing apparatus for Military contractors, including Boeing, Lockheed Martin and General Dynamics. His capabilities include; project management, mechanical design, and computer-aided simulation and analysis.

Cooper graduated from Auburn University with a Bachelor of Science in Mechanical Engineering and is Florida Accredited EIT.

"We are excited about Corey becoming a part of the West Point Industries team and expanding our business into the Florida Gulf Coast. The combination of his experience with military testing and maintenance requirements, our local presence, and West Point Industries manufacturing capabilities will provide a turnkey engineering and manufacturing solution for the military installations on the Gulf Coast," said West Point Industries CEO and President, Pate Huguley.

West Point Industries, founded in 1868, is an engineering and manufacturing business located in West Point, Georgia. The company specializes in developing practical engineered solutions, designed for process improvements, safety and efficiency. Capabilities include mechanical and electrical engineering, castings, steel fabrication, and machining. For more information please visit our website at [www.westpoint.com](http://www.westpoint.com).
