**Corey Cooper Obtains Professional Engineering (PE)  
Certification in Florida**

West Point, Ga.—West Point Industries is pleased to announce Corey Cooper achieved a passing score from the National Council of Education for Engineering and Surveying Mechanical Principles & Practice of Engineering Exam and has received his Professional Engineering Certification in the State of Florida.

Cooper is now eligible to stamp and sign engineering drawings and calculations for West Point Industries where he is a Project Engineer in the Destin, Florida office. He graduated from Auburn University with a Bachelor of Science in Mechanical Engineering and is now a Florida Accredited Professional Engineer (PE).

Cooper has worked for years to assist the 46th Test Wing at Eglin Air Force Base with Operating and Controlling Weapons Test Missions, as well as developing testing apparatus for Military contractors, including Boeing, Lockheed Martin and General Dynamics. His capabilities include; project management, mechanical design, and computer-aided simulation and analysis.

**West Point Industries, founded in 1868, is an engineering and manufacturing business located in West Point, Georgia.
